HUNTING SEASON IS HERE

The sun has risen on another upland and deer hunting season at Hawkeye Hunting Club. We couldn't be happier to start the season off with some cooler weather and much needed rain while we enjoy the fruits of our intensive off-season labors.

We have our dogs tuned up, our gear is ready, and the birds are flying great. Once again, we are excited to see so many familiar names on our schedule this year along with some new names we hope will become old friends. If you haven't booked your stay yet, please give us a call soon so we can work to get your

preferred dates blocked off on the calendar.

Remember, no group is too small or too large and we can customize your visit for any level of experience from instruction and training to field hunts and tower shoots. Our guides love taking new hunters out for their first birds just as much as they love filling bag limits for veteran wing shooters. We love to hunt!

**** Like/Follow us on social media for more news and updates! ****

AVAILABILITY

We still have availability for overnight stays and day hunts in October and November. Call today to see if your preferred dates are available. As always, we are happy to offer alternate dates and options if your schedule is flexible.

DEER HUNTS

Limited permits are still available for overnight guests. Call today to reserve yours.

ACTIVITIES

With 3 shotgun ranges, a long-range rifle range, great fishing, pheasant tower shoots, and a chukar cannon, we can design a stay to suit your specific needs. We love our corporate and family groups and work with all types of shooters & hunters, including those with limited mobility and youth instruction.

Land Management for Hunting Success

Here at Hawkeye, we pride ourselves in our off-season efforts to make each season the best it can be for our hunters. We work hard to be good stewards of the land and to manage Hawkeye for the benefit of multiple uses while providing a sustainable resource for the future.

From seasonal plantings and supplemental feed for our deer and bird populations, to bird propagation and predator control, we work year-round to improve on what we have built in past years. This year, historic drought in East Texas presented an unexpected challenge to our outdoor staff. However, thanks to persistence (and a little luck) we are blessed to see our work pay off as late summer rains provided a much-needed burst of growth to our field cover. We are thankful to be ready for season and can't wait to see you all.

HAWKEYE HUNTING CLUB

Propagation Sets Us Apart!

There is nothing like the feeling you get when a dog goes on point, the safety clicks off, and a large covey flush surprises even the guides! If you've hunted Hawkeye recently, you know that experience is something we pride ourselves on providing. Too often, plantation hunting is limited to single & double flushes, but we work hard to make the Hawkeye Experience something different. Join us this season and see all that makes Hawkeye unique.

BY THE NUMBERS:

How to Plan Your Hawkeye Experience

01

Warm up at our shaded, lighted 5-Stand Range. Instruction is available for new shooters.

02

Morning and/or afternoon field hunts provide the full Hawkeye Experience.

03

Presidential Pheasant Tower Shoots are great for larger groups to enjoy fast paced shooting.

04

Our chukar cannon is a unique experience that tests a shooter's skill and reflexes.
